The most important rules of WOLFENSTEIN

- * 4th floor are off-limit, roof access is prohibited
- * it is forbidden to play outside the construction fences
- * in the corridors of WOLFENSTEIN semi-automatically
- * Do not hang out of windows
- * Fully automatic firing is permitted from the windows to the outside, the same from outside to the inside
- * Wolfenstein has dozens of rooms that naturally invite you to use airsoft grenades. When using, always chant 'grenade' or 'fire in a hole'. If the grenade goes off, everyone in the room is dead
- * The use of smoke bombs is permitted
- * We are once again working with 'Mystery Marshall's' who are authorized to perform as well as 'The AIRSOFT VAR'. If you are caught red-handed, end of day for that person.
- * Waste must be taken with you after the skirms and there are several gas stations along the way to dump the waste in the containers available at each gas station (= free).
- * BANG rule applies within 5 meters

PARKING AND SAFETYZONE:

- We will use all 3 floors (4th forbidden) in this special event.
- Therefore changing area is on the parking spot and not in WOLFENSTEIN. WOLFENSTEIN is today a full gameplay area.

Airsoft Store

- Order before thursday **11 SEPTEMBER** your airsoft needs at www.airsoften.nl and choose for pick up at location (payment online). We will bring it with us. During the skirm we also have some essentials.

Catering & Field shop:

We will serve some catering and have a small airsoft shop available at location

Description:

Wolfenstein is located on a hill, so you drive into the street Rue de Borgoumont, which eventually ends in the former sanatorium. This is where players always have to drive against us as ORGA. The players check in and are then given the opportunity to drive to a point (tunnel) where you can neatly load and unload.

The dixi is located in the parking lot, which otherwise offers sufficient parking spaces, so parking there is much less of a 'challenge' compared to TRANCENTRAL.

The building

Everything that is within the construction fences of WOLFENSTEIN is included in the game, except for floor 4 (attic).

- * basement
- * ground floor
- * first floor
- * second floor
- * third floor

*** 4TH FLOOR FORBIDDEN!**

In terms of respawn points, we have two standard starting points, 'North' and 'South'.

Additional for anyone who is new to Wolfenstein and comes from far away:

Approx. 2km from Wolfenstein is the Ardennes '44 museum in the heart of La Gleize with one of the last Tiger II tanks'. The museum is also impressive and worth a visit. They also sell found 'militaria artifacts', often very affordable.

A photo with the tank makes for a nice team photo. Wolfenstein was a field hospital of the Americans in 1945 and not far from there today the episode of 'Band of Brothers - episode Ardennes' was recorded. This in the context of historical awareness and a bit of education for the players, it is 80 years ago this year on December 16.
